

RAFAEL RODRIGUES

Senior Data Analyst · Analytics Engineer · Cloud BI Specialist

Brazil | +55 22 99241-8257 | Rafa_roberto2004@yahoo.com.br | linkedin.com/in/rafael-r-a3946a15

PROFESSIONAL SUMMARY

Senior Data Analyst and Analytics Engineer with 15+ years of experience delivering enterprise-scale BI, cloud analytics, and self-service data platforms across Telecommunications, Retail, Financial Services, Marketing, and Industrial sectors. Specialized in Power BI, SQL, Python, dimensional modeling, KPI governance, and cloud analytics using BigQuery, Databricks SQL, Snowflake, Amazon Athena, and Azure Synapse. Strong track record designing executive dashboards, optimizing analytics environments processing 500M+ records, reducing reporting latency by up to 70%, and enabling data-driven decision-making for C-level stakeholders.

SELECTED IMPACT

- \$9M+** Operational savings — TIM/OI Telecommunications
- 70%** Report latency reduction — Keyrus consulting
- 200+** Business users served across analytics platforms
- 500M+** Subscriber records processed monthly
- 60%** Dashboard load time reduction via DAX optimization
- 12+** Heterogeneous data sources integrated per ETL/ELT pipeline

CORE TECHNICAL SKILLS

BI / Viz: Power BI · Tableau · Looker · SSRS · SSAS
Power BI: DAX · Power Query (M) · RLS · Dataflows · Incremental Refresh · Certified Datasets · Fabric
Cloud DW: BigQuery (GCP) · Snowflake · Databricks SQL · Amazon Athena · Azure Synapse
ETL/ELT: Azure Data Factory · AWS Glue · SSIS · dbt · Python (pandas)
Databases: SQL Server · PostgreSQL · Oracle · MySQL
Code: Python · Advanced SQL · DAX · M (Power Query)
Modeling: Dimensional Modeling · Star Schema · SCD 1/2 · Data Governance · LGPD/GDPR

PROFESSIONAL EXPERIENCE

Senior Data Analyst — Dataex | 2022 – Present

- Designed and delivered enterprise Power BI, Tableau, and Looker solutions with RLS and self-service capabilities for 200+ users
- Developed scalable dimensional models integrating SQL Server, Oracle, APIs, BigQuery, Snowflake, and Databricks
- Reduced report load time by 60% through DAX optimization, aggregation strategies, and BI performance tuning
- Built ETL pipelines integrating 12+ heterogeneous data sources; implemented LGPD compliance and data governance

Senior Data Analyst — Keyrus | 2019 – 2022

- Built enterprise self-service analytics platforms with Dataflows, certified datasets, and incremental refresh for FS, Retail, Insurance clients
- Optimized SQL queries and analytical models reducing execution time by up to 70%
- Integrated SAP, Salesforce, REST APIs, Oracle, SQL Server into Azure Synapse analytics environments
- Established BI governance standards and analytics delivery guidelines across the practice

Senior Data Analyst — Coca-Cola | 2018 – 2019

- Developed executive dashboards consolidating 30+ KPIs across marketing, sales, and digital analytics via Google BigQuery
- Automated reporting workflows using Python and SQL — reducing manual processing from 4h/day to under 20 minutes

Senior Data Analyst — TIM / OI Telecommunications | 2007 – 2017

- Led modernization of telecom analytics platforms — churn prediction, subscriber growth, revenue forecasting, operational KPIs
- Supported analytics environments processing 500M+ subscriber records monthly
- Led Agile analytics squads for 500+ daily report consumers; generated \$9M+ in operational savings

EDUCATION & CERTIFICATIONS

- **Microsoft PL-300 Certified** — Power BI Data Analyst Associate
- **Tableau Desktop Specialist**
- **MBA — Business Administration** | IBMEC Business School
- Bachelor's Degree — Information Systems
